

Not sure whether this thread is still active but stumbled across it whilst researching. GB triangular postmarks were generally used on printed matter. I have tried to find a comprehensive list of those used but I cannot find one. The Whitney 'Collect British Postmarks' acknowledges their existence but gives no details of the codes used. From various sources I have created the following list but it is by no means complete and I cannot guarantee it is 100% accurate either. Any additions/corrections are welcome.

Code Place
